Supervisor Brandon Criss, Chair, District 1  
Supervisor Ed Valenzuela, Vice Chair, District 2  
Supervisor Michael Kobseff, District 3  
Supervisor Nancy Ogren, District 4  
Supervisor Ray Haupt, District 5

In accordance with the provisions of Section 2279 of the California Food and Agricultural Code, I am pleased to submit the Siskiyou County Annual Crop and Livestock Report for 2022. This report represents estimated acreage, yield, and gross value of Agriculture products in Siskiyou County.

The gross agricultural receipts for 2022 totaled \$377,333,933, a reduction of \$16,560,535 from the 2021 growing season. Even with a reduction in acreage, nursery crops continue to be the largest contributor to Siskiyou County's agriculture production, with \$193,288,350 in value.

Severe drought conditions affected agriculture production in 2022; irrigation water was limited due to drought and regulatory cutoffs/curtailments across all of Siskiyou Counties agricultural production areas. Consequentially, fallowed acres increased or were maintained from previous years water cutoffs/curtailments. Many crops were not planted, and pastures and hay crops succumbed from lack of water. Where water was available, the short irrigation season impacted yield and quality, and adversely affected survival of perennial crops such as hay and pasture. In addition, massive wildfires burned up rangeland and timber. Especially hard hit have been our livestock operations, with herd reductions or dispersal being very common.

The figures contained in this report represent gross values only, and do not reflect a net return to the producer or the cost of production, nor do they reflect any one individual operation since the entire county is the smallest unit measured for any particular commodity.

I sincerely appreciate the efforts and cooperation of all the agricultural interests which provided production information. I especially thank the department staff for compiling and producing this informative publication.

Respectfully submitted,

JAMES E SMITH

## MISSION STATEMENT

We are charged with promoting and protecting the agricultural industry of Siskiyou County. We ensure that the consumer has confidence that they receive accurate weight and measure in the market place. We protect the environment and the citizens of the county through our environmental and natural resource protection, consumer and industry protection, and animal control programs.

Siskiyou County has a rich farming and ranching heritage with many fourth and fifth generation operators. Livestock and field crops are the most common agricultural type of production in the county. Strawberry nursery production has recently become one of the county's most valuable crops with plants exported to many countries worldwide.

We are committed to serving and protecting Siskiyou County's agricultural industry as well as the County's unique and diverse landscape.

# About Siskiyou County

Fifth largest California county by area.

2022 population was 43,660.

Northern California adjacent to the Oregon border

Cities and towns: Yreka--the County Seat, Mt. Shasta, Weed, Dunsmuir, McCloud, Dorris, and Tulelake.

Ecologically diverse region with spectacular natural beauty and scenery.

At the "meeting" of several western mountain ranges with the transitional mixing of various habitat types.

Considerable variance in elevation, hydrological and soil conditions.

Three distinct Valleys, Butte, Scott, and Shasta.

> 60% of Siskiyou County is managed by Federal and State agencies and include National Forests, Monuments, Parks, Wilderness Areas, National Grasslands, National Wildlife Refuges, and State Wildlife Areas.

U.S. Forest Service

Bureau of Land Management

U.S. Fish and Wildlife Service

Bureau of Reclamation

European Pine Shoot Moth	5	Throughout county
Light Brown Apple Moth	17	Butte Valley Nursery Production Areas
Marmorated Stink Bug	1	Yreka
<b>PEST EXCLUSION</b>		
Nursery stock and seed*	127 shipments inspected	
Phytosanitary Certificates	80 Issued	
Nursery Stock Field Inspection	3,043.99 acres inspected	

\*008's Included in total

# Weights & Measures

## Primary Functions:

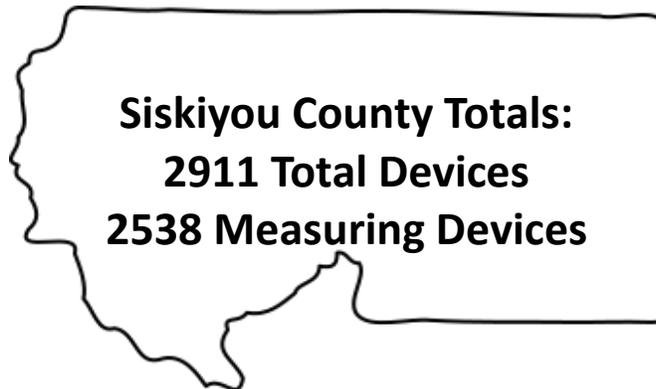

To ensure fair competition for industry and accurate value comparison for consumers

To ensure the accuracy of commercial weighing and measuring devices

Verifying the quantity of both bulk and packaged commodities

Enforcing the quality, advertising and labeling standards for consumer products

Siskiyou County's Deputy Sealer of Weights and Measures tests a large variety of devices: from small capacity scales used at your local farmers markets to vehicle scales for semi-trucks. Any device that weighs or measures must meet use, accuracy, and precision requirements, before they can be placed into commercial use. If the device passes inspection, our Deputy Sealer places a visible paper county seal on the device. When you see this sticker on your local grocery store scale or gas pump, you can be assured you are being sold an honest weight or measure.

Siskiyou County Totals: 2911 Total Devices, 2538 Measuring Devices, 373 Weighing Devices

<b>MEASURING DEVICES</b>	<b>NUMBER</b>	<b>WEIGHING DEVICES</b>	<b>NUMBER</b>
