

TURN AROUND FOR MEN

TURN AROUND TREATMENT AND RECOVERY

Turn Around is an Intensive Outpatient Treatment program with individualized treatment planning for substance dependent clients. Services are offered three hours per day, three days per week, for a total of 60 treatment days or 240 hours. Turn Around is open to any adult who is appropriate for treatment in an outpatient setting. Clients may self refer, and referrals are accepted from the courts, Probation, Parole, or other agencies. Treatment is focused on maintaining sobriety and re-establishing a healthy life in the community. This is a clean and sober treatment program.

ASSESSMENTS

For each client to determine appropriate level of treatment.

EDUCATION

About the disease of chemical dependency and its effects on individuals and families

TREATMENT PLANNING

Individualized for each person and to support the effort needed to reach preset, ever-evolving goals as the client moves through the program.

COUNSELING

In group and individual settings and with case management as needed.

REFERRALS

To primary medical and pediatric care.

CASE MANAGEMENT

Focused on obtaining needed resources in the following areas:

- Job Training/or Job Search
- Education
- Securing Safe Housing
- Obtaining Child Care.

MORE

- Turn around is grounded in the 12-step philosophy
- Inter-agency meetings and coordination of services
- Regular status reports to court and child protective services required.

CLEAN AND SOBER

Turn around is a clean and sober program, and includes frequent random drug testing on all clients.
