Bloodborne Pathogen Exposure Control Training Classes

Body art practitioners, volunteers, and employees who perform duties within the decontamination and sterilization area or procedure area are required to complete a bloodborne pathogen training class that meets the requirements of the California Occupational Safety and Health Administration (Cal OSHA) Bloodborne Pathogen Standard contained in section 5193 of Title 8 of the California Code of Regulations.

The training and training materials must be specific to performing body art and shall not consist of less than two hours of instruction. Records of training shall be maintained for three years and shall be available for inspection upon request of the inspector.

The following Bloodborne Pathogen Training Classes are approved for use in Siskiyou County.*
