STEPHEN PERLMAN, M.D.
HEALTH OFFICER

Partial list of State Approved Water Labs in Northern California

The following labs have been approved by the Department of Health Services, Sanitation and Radiation Laboratory Section, to perform bacteriological and/or chemical analyses of drinking water. This list has been compiled as a convenience to water system operators and is not a recommendation of any particular lab. Only commercial laboratories that are located in our region have been listed. For a complete list of approved laboratories contact the Sanitation and Radiation Laboratory Section, 2151 Berkeley Way, Berkeley, CA 94704.

You should contact the laboratory of your choice for prices and information on how samples must be collected and submitted.
