

Siskiyou County
Planning Commission Staff Report
February 15, 2023

New Business Agenda Item No. 1
Amornpongchai Use Permit (UP-21-19)

Applicant: Aunyporn Amornpongchai and Billy Cheung

Property Owners: Nipaporn Amornpongchai
Billy Cheung
Aunyporn Amornpongchai
Gap Amorn
9401 Peyton Court
Elk Grove, CA 95758-4585

Project Summary The applicant is requesting approval of the following:

- Use Permit approval to allow short-term vacation rental use of an existing single-family dwelling.

Location: The project is located at 641 South First Street, south of the city of Dunsmuir; APN: 030-570-030; Township 39N, Range 4W, Section 36; Latitude 41.1933°, Longitude -122.2788°.

General Plan: Erosion Hazard; Septic Tank Limitations, Flood Hazard, Surface Hydrology, Critical Deer Wintering Area, Wildfire Hazard; Woodland Productivity

Zoning: Rural Residential Agricultural (RR)

Exhibits:

- A. Draft Resolution PC 2023-005
A Resolution of the Planning Commission of the County of Siskiyou, State of California, Determining the Project Exempt from the California Environmental Quality Act and Approving the Amornpongchai Use Permit (UP-21-19)
 - A-1. Notations and Recommended Conditions of Approval
 - A-2. Recommended Findings
- B. Comments

Background

The subject parcel is owned by four individuals: Nipaporn Amornpongchai (25% interest), Billy Cheung and Aunyporn Amornpongchai (50% interest), and Gap Amorn (25% interest). The project is located at 641 South First Street, south of the city of Dunsmuir.

The property is a legal parcel that was originally created as Lot 46, as shown on the map titled, "Plat of Subdivision E.E. Deyarmie's Tract Near Nutglade". This parcel map was filed in the Siskiyou County Recorder's Office on June 6, 1923, in Town Map Book 1, at page 82.

This approximately 0.18-acre parcel is developed with a single-family dwelling with a detached garage that is appropriate to the R-R district. The dwelling is a 1,260 square foot single-story structure. Water and sewer are provided by connection to the city of Dunsmuir.

The surrounding properties in the neighborhood are zoned for R-R uses and are developed with single-family dwellings. The Sacramento River and the Union Pacific Railroad are west of the subject parcel. Two permitted short-term rentals are within a half-mile-radius of the project site. Measured house to house, the closest is approximately 550 feet (0.1 miles) away and the furthest is approximately 2600 feet (0.5 miles) away.

Figure 1: Project Location

Figure 2: Zoning Map

Figure 3: Short-Term Rental Map

Analysis

The Land Use Element of the Siskiyou County General Plan identifies the project site as being within the mapped resource overlay areas for Erosion Hazard, Septic Tank Limitations, Flood Hazard, Surface Hydrology, Critical Deer Wintering, Wildfire Hazard, and Woodland Productivity. In addition, planning staff has identified that Composite Overall Policies 41.3(e), 41.3(f), 41.6, 41.7, 41.9, and 41.18 apply to the proposed project.

Staff has conducted a detailed analysis of each of the required findings and has found that the proposed project is consistent with the applicable General Plan policies governing the subject site. In addition, the use as conditioned would be compatible with the surrounding land uses, has adequate roadway access for transportation and public health and safety provisions, and would not create environmental impacts to on- or off-site resources. The recommended findings are detailed in the General Plan Consistency Findings section of Exhibit A-2 attached to this staff report and are submitted for the Commission's review, consideration, and approval.

Zoning Consistency

The proposed project site is situated in the Rural Residential Agricultural (R-R) district and the proposed short-term vacation rental is a conditionally permitted use pursuant to Section 10-6.1502(h) of the Siskiyou County Code. Based on staff's analysis of the proposed use, staff believes that the necessary findings can be made for approval of the application. The recommended findings are detailed in the Zoning Consistency Findings section of Exhibit A-2 attached to this staff report.

Discussion

Siskiyou County Code Section 10-6.1502(h) allows for vacation rentals in single-family or two-family dwellings subject to the issuance of a use permit. Vacation rentals are also subject to specific conditions, including property management requirements, maximum rental periods, occupancy limits, and parking requirements.

Property Management

Siskiyou County Code, Section 10-6.1502(h)(1) requires that a vacation rental be managed by a County resident or professional property management firm located in Siskiyou County and that such resident or firm be available on a twenty-four (24) hour basis. This requirement is one of the Conditions of Approval itemized in Exhibit A-1 and made a part of this written staff report.

Maximum Rental Period

Maximum Rental period per Siskiyou County Code Section 10-6.1508(h)(2) for each occupancy is limited to no more than thirty (30) consecutive days. This requirement is one of the Conditions of Approval itemized in Exhibit A-1 and made a part of this written staff report.

Inspections

Prior to the issuance of a use permit, both Siskiyou County Building and Environmental Health Department inspections are required to determine whether the facility complies with established standards. The subject property passed inspections on September 23, 2022 and September 10, 2022, respectively.

Parking

Siskiyou County Code, Section 10-6.1502(h)(6) requires one off-street parking space for the vacation rental, plus one additional space for each of the available sleeping rooms. Three sleeping rooms are within the proposed vacation rental; therefore, a total of four off-street parking spaces are required. Adequate off-street parking exists on the driveway for the required four spaces, with an extra space in the garage if needed.

Property Owners Associations

Pursuant to Siskiyou County Code, Section 10-6.1502(h)(8), the Planning Commission's action shall consider the decision of duly recognized property owners associations concerning the establishment of vacation rentals within their jurisdiction. This property is not within a property owners association.

Occupancy

The single-family dwelling contains three (3) bedrooms that the applicant proposes to use as sleeping rooms. The three bedrooms may be used for occupancy purposes subject to building inspection requirements. The master bedroom is approximately 201 square feet. The two remaining bedrooms are approximately 142 and 123 square feet. Based on available square footage of the sleeping areas, up to ten guests could be accommodated at any one time in the proposed vacation rental. This figure is equal to that allowed by Siskiyou County Code Section 10-6.1502(h)(9), which limits occupancy of vacation rentals to a maximum of ten guests at any one time. While this property was originally developed with a septic system which would have limited the occupancy to that which the septic system was designed, the property owners were recently granted an Out of Area Service Agreement by Siskiyou Local Agency Formation Commission (LAFCO), which permitted connection to city of Dunsmuir water and sewer systems. Therefore, the occupancy is limited to a maximum of ten guests, as itemized in Exhibit A-1 as a Condition of Approval.

Sphere of Influence – City of Mt. Shasta

This property is south of the city of Dunsmuir and is therefore not within the city of Mt. Shasta's Sphere of Influence.

Note: Equal flat grading
 throughout the property

Environmental Review

The proposed project (i.e., use of an existing single-family dwelling as a vacation rental) is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301, Class 1, *Existing Facilities*. This exemption consists of the operation, maintenance, permitting, or licensing of existing public or private structures or facilities involving negligible or no expansion of the use beyond what existed at the time of the lead agency's determination. This exemption fits the proposed project because the use of the existing single-family home will be utilized as a short-term rental.

The Planning Commission must consider the proposed CEQA exemption together with any comments received during the public review process. Further, the exemption can only be approved if the Commission finds, based on the whole record before it, that there is not substantial evidence that there are unusual circumstances (including future activities) which might reasonably result in the project having a significant effect on the environment.

Calls for Service History

Siskiyou County Sheriff's Department – January 24, 2023

Within the past 12 months, no calls for service were received within the vicinity of the project site that were associated with the residence.

Siskiyou County Code Enforcement – January 24, 2023

Within the past 12 months, no calls for service were received within the vicinity of the project site that were associated with the residence.

Comments

A Notice of Public Hearing was published in the Siskiyou Daily News on February 1, 2023 and mailed to property owners within 300 feet of the subject property. No public comments have been received at the time this staff report was written.

Siskiyou County Building Division – September 23, 2022

The Building Division reviewed the information related to the proposed short-term vacation rental and performed an on-site inspection on July 27, 2022. The subject property passed the inspection as there were no items that needed to be corrected.

Planning Response: Compliance with the Building Code requirements to the satisfaction of the County Building Division has been included as recommended Conditions of Approval number 12 for the proposed project (see Exhibit A-1).

Siskiyou County Environmental Health Division – September 10, 2022

Environmental Health has reviewed information related to the proposed short-term vacation rental and has no objection to the project. Water service is provided by connection to city of Dunsmuir. Sewer was to be connected at a future date to city of Dunsmuir facilities.

Planning Response: Planning staff contacted Dunsmuir sewer and water staff regarding if the planned sewer connection had occurred. Dunsmuir staff conducted a site visit on January 23, 2023 and verified that the subject property connections for both sewer and water had been completed. Compliance with Environmental Health requirements to the satisfaction of

Environmental Health has also been included as recommended Conditions of Approval (numbers 11, 12, 13, and 14) for the project (see Exhibit A-1).

Siskiyou County Treasurer-Tax Collector – October 5, 2022

The Treasurer-Tax Collector commented on the need for a business license and also noted that the current fiscal year taxes were due on the subject property.

Planning Response: Obtaining a business license for the proposed use has been included as recommended Condition of Approval number 10 for the proposed project (see Exhibit A-1). The first installment taxes for the subject property were paid on November 8, 2022. Second installment taxes are not due until April 10, 2023 and are not past-due at this time.

California Department of Forestry and Fire Protection (Cal Fire) – October 6, 2022

Comments were submitted regarding Cal Fire's requirements for this project, specifically those pertaining to emergency access and egress, signing and building numbering, and fuel modification and standards as specified pursuant to Public Resources Code 4290.

Planning Response: Compliance with Cal Fire requirements to the satisfaction of Cal Fire and Siskiyou County Planning has been included as recommended Conditions of Approval number 15 for the project (see Exhibit A-1).

Planning Staff Recommendations

- Adopt Resolution PC 2023-005 taking the following actions:
 - Approve the Use Permit (UP-21-19) request based on the recommended findings and subject to the recommended conditions of approval; and
 - Determine the project exempt from the California Environmental Quality Act (CEQA) in accordance with CEQA Guidelines Section 15301, Class 1, *Existing Facilities*.

Suggested Motion

I move that we adopt Resolution PC 2023-005, A Resolution of the Planning Commission of the County of Siskiyou, State of California, Approving the Amornpongchai Use Permit (UP-21-19) and determining the Project Exempt from CEQA.

Preparation

Prepared by the Siskiyou County Planning Division.

Yreka, CA 96097

Resolution PC 2023-005

A Resolution of the Planning Commission of the County of Siskiyou, State of California, Determining the Project Exempt from the California Environmental Quality Act and Approving the Amornpongchai Use Permit (UP-21-19)

Whereas, Section 10-6.1502(h) of the Siskiyou County Code permits vacation rentals within single-family and two-family dwellings subject to approval of a use permit and provided specific conditions are met; and

Whereas, Aunyporn Amornpongchai and Billy Cheung applied for a use permit to allow for a vacation rental use of a single-family dwelling located at 641 South First Street, south of the city of Dunsmuir on Assessor Parcel Number 030-570-030; and

Whereas, the Planning Division presented its oral and written staff report on proposed Use Permit UP-21-19 at the Planning Commission's regularly scheduled meeting on February 15, 2023; and

Whereas, the Planning Division recommended Use Permit UP-21-19 be determined categorically exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15301 of the CEQA Guidelines because it can be seen with certainty that there would not be any significant impacts to the environment resulting from the project; and

Whereas, the Planning Division recommended approval of Use Permit UP-21-19 subject to the conditions of approval provided in Exhibit A-1 to this resolution referenced hereto and incorporated herein; and

Whereas, a Notice of Public Hearing was published in the Siskiyou Daily News on February 1, 2023; and

Whereas, hearing notices were posted pursuant to Siskiyou County Code Section 10-6.2805 *et seq.*; and

Whereas, on February 15, 2023, the Chair of the Planning Commission opened the duly noticed public hearing on Use Permit UP-21-19 to receive testimony, both oral and written, following which the Chair closed the public hearing and the Commission discussed Use Permit UP-21-19 prior to reaching its decision.

Now, therefore be it resolved that the Planning Commission adopts the recommended findings set forth in Exhibit A-2 of the written staff report referenced hereto and incorporated herein; and

Be it further resolved that the Planning Commission, based on the evidence in the record and the findings set forth in Exhibit A, determines the project categorically exempt from CEQA pursuant to Section 15301 of the CEQA Guidelines and approves Use Permit UP-21-19 subject to the notations and conditions of approval contained in Exhibit A-1 to this resolution referenced hereto and incorporated herein.

It is hereby certified that the foregoing Resolution PC 2023-005 was duly adopted on a motion by Commissioner _____ and seconded by Commissioner _____, at a regular meeting of the Siskiyou County Planning Commission held on the 15th day of February, 2023, by the following voice vote:

Ayes:

Noes:

Absent:

Abstain:

Siskiyou County Planning Commission

Danielle Lindler, Chair

Witness, my hand and seal this 15th day of February, 2023.

Hailey Lang, Secretary of the Commission

Exhibit A-1 to Resolution PC 2023-005
Notations and Recommended Conditions of Approval

Notations

1. Within ten (10) days following the date of the decision of the Siskiyou County Planning Commission, the decision may be appealed to the Siskiyou County Board of Supervisors. The appeal shall be filed with the Clerk of the Board of Supervisors.
2. Upon determination of the categorical exemption(s), a check in the amount of \$50 made payable to the Siskiyou County Clerk and submitted to the Siskiyou County Planning Division is necessary in order to file the Notice of Exemption. Failure to file the Notice of Exemption extends the statute of limitations for legal challenges to the categorical exemption from 35 days to 180 days.

Conditions of Approval

1. The applicant shall include and reference their Use Permit number (UP-21-19) on any written advertisement for the Vacation Rental, including online advertisements.
2. In no instances shall occupancy exceed ten (10) persons.
3. At any time while the property is in use as a Short-Term Vacation Rental, the use of firearms or fireworks upon the property by the short-term renter is prohibited.
4. The following notices shall be posted on or next to the front door within the subject vacation rental at all times that the property is being used as a vacation rental, and to the satisfaction of the Deputy Director of Planning:
 - A. The complete use permit that was approved and issued by the Siskiyou County Planning Division for the subject vacation rental; and
 - B. A notice that the details the following information, including but not limited to:
 - Parking restrictions
 - The prohibition of on-street parking along South First Street
 - Prohibition of all outdoor burning because this is a wildfire hazard area
 - Prohibition of the use of firearms or fireworks upon the property at any time by the short-term renter
 - Emergency contact information, including the Siskiyou County Public Health Department, the 24-hour contact information for the property manager and plumber in the event of an emergency

- A list of unacceptable items for disposal in the sewer such as diapers, feminine napkins, paper towels, etc.
 - Emergency exits and emergency escape diagram
 - Refuse collection regulations and collection times
 - Restrictions on loud noise (i.e. music, parties) after 10 P.M.
 - A site diagram showing the water shutoff valve location, location of the shutoff tool(s), if any, and a narrative of how to shut off these valves if necessary.
 - Any other applicable or required information.
5. The project shall substantially conform to the application submitted August 27, 2021, including any materials subsequently submitted to the Planning Division prior to the application being deemed complete, and as approved by the Siskiyou County Planning Commission on February 15, 2023. Any proposed amendment(s) shall be submitted to the Deputy Director of Planning. Minor amendments shall be considered by the Community Development Director. Major amendments shall be considered by the Planning Commission.
 6. The Short-Term Vacation Rental shall be managed by a County resident or professional property management firm located in Siskiyou County, and such resident or firm shall be available on a twenty-four (24) hour basis. Written confirmation in a form acceptable to the Planning Director as to the current property manager shall be submitted prior to use permit issuance. Upon a change of ownership or property management company, written confirmation in a form acceptable to the Deputy Director of Planning shall be provided within ten (10) days of said change.
 7. The maximum rental period shall be thirty (30) consecutive days per occupancy.
 8. A minimum of four (4) off-street parking spaces shall be provided and such parking spaces shall be in accordance with the Siskiyou County Code. As part of any lease agreement, a specific restriction shall be included that requires all guest parking to be located off-street within designated parking spaces and that prohibits parking along South First Street. The property owner shall be responsible for enforcing this condition and in the event that this condition is violated, the Department reserves the right to revoke the use permit.
 9. Guests are to be advised that encroachment on the public roadway during plowing operations is prohibited per Siskiyou County Code Sec. 3-4.301. The County of Siskiyou is not responsible for damages to vehicles encroaching on the roadways during snow plowing operations.
 10. A Siskiyou County Business License shall be obtained and maintained throughout the use of the residence as a vacation rental.

11. The applicant shall comply with all adopted rules and regulations of the Siskiyou County Public Works Department, Environmental Health Division of the Siskiyou County Community Development Department, and all other local and state regulatory agencies.
12. An inspection of the existing residence shall be required by both the Building and Environmental Health Division to determine if the facility complies with the standards specified herein. All items noted on the inspection shall be corrected. Proof of compliance is required prior to authorization for use of the dwelling as a vacation rental.
13. The owners of the property, or designated property management firm, shall provide adequate garbage receptacles and shall have the trash removed every seven (7) days from the premises, or as often as necessary to prevent nuisance or threat to public health to the satisfaction of the Environmental Health Department.
14. Pool or spa facilities may not be added to the premises until approval from the Environmental Health Division and the appropriate Building Permit is obtained.
15. The applicant shall comply with, and provide verification of compliance, with all applicable statutory requirements of the fire safe standards enacted pursuant to Public Resources Code Section 4290 and California Code of Regulations, Title 14, Fire Safe Regulations, to the satisfaction of Cal Fire and Siskiyou County Planning Division.
16. All outdoor burning is prohibited. Cooking fires contained within an enclosed grill, smoker, or similar device are exempt from the prohibition.
17. The applicant shall provide properly maintained fire extinguishers, which are required for each short-term vacation rental.
18. Smoke detectors and carbon monoxide detectors are required to be installed as per current building code.
19. Transient Occupancy Tax (TOT) shall be collected and paid to the County of Siskiyou as required by Siskiyou County Code Section 8-4.
20. The applicant, shall defend, indemnify and hold harmless the County, its agents, officers and employees from any claim, action, or proceeding (collectively, "Action") against the County, its agents (including consultants), officers or employees to attack, set aside, void, or annul the approvals, or any part thereof, or any decision, determination, or Action, made or taken approving, supplementing, or sustaining, the project or any part thereof, or any related approvals or project conditions imposed by the County or any of its agencies, departments, commissions, agents (including consultants), officers or employees, concerning the project, or to impose personal liability against such agents (including consultants), officers or employees resulting from their non-

negligent involvement in the project, which action is brought within the time period provided by law, including any claim for private attorney general fees claimed by or awarded to any party from the County. Said responsibilities shall be pursuant to the County's standard Agreement for Indemnification in effect at the time of application approval or Agreement for Indemnification if signed and effective prior to the date the application is approved. In the event that the applicant fails to comply with the terms of the applicable agreement, the applicant does hereby consent and agree to all remedies in said agreement and does hereby agree and consent to the County rescinding all applicable project approvals.

Findings

Zoning Consistency/Use Permit Findings

1. The proposed Use Permit, as recommended for approval, is consistent with the applicable elements and policies of the Siskiyou County General Plan.
2. The proposed vacation rental is consistent with the applicable zoning provisions outlined in Section 10-6.1502(h) of the Siskiyou County Code.
3. Due to size, scale, intensity, and location of the project, the proposed use will not result in a significant change in the existing environment that would in any way threaten the public health, safety, peace, morals, comfort, convenience, or general welfare.
4. Due to the size, scale, intensity, and location of the project, the proposed use will not cause damage or nuisances from noise, smoke, odor, dust, vibration, explosion, contamination, fire, or traffic and will be reasonably compatible with the existing and permitted uses in surrounding areas.
5. The Planning Commission has considered all written and oral comments received and based on its analysis of the public testimony and staff's analysis, the Commission has determined that the project as designed and conditioned would be compatible with existing and planned uses of the area.

General Plan Consistency Findings

Composite Overall Policies

Policy 41.3(e) - All proposed uses of the land shall be clearly compatible with the surrounding and planned uses of the area.

The proposed vacation rental would be clearly compatible with existing uses adjacent to the project site and would not in any way threaten the public health, safety, peace, morals, comfort, convenience, or general welfare of the surrounding area.

Policy 41.3(f) – All proposed uses of the land may be allowed if they clearly will not be disruptive or destroy the intent of protecting each mapped resource.

No new development is proposed as part of this project and, therefore, no disruption of a mapped resource would occur.

Policy 41.6 - There shall be a demonstration to the satisfaction of the Siskiyou County Environmental Health Department and/or the California Regional Water Quality Control Board that sewage disposal from all proposed development will not contaminate ground water.

Sewage disposal for the existing single-family dwelling is provided by connection to city of Dunsmuir facilities. No new development is proposed as part of this project.

Policy 41.7 - Evidence of water quality and quantity acceptable to the Siskiyou County Environmental Health Department must be submitted prior to development approval.

Water service to the existing single-family dwelling is provided by connection to city of Dunsmuir facilities. No new development is proposed as part of this project.

Policy 41.8 – All proposed development shall be accompanied by evidence acceptable to the Siskiyou County Health Department as to the adequacy of on-site sewage disposal or the ability to connect into an existing city or existing Community Services District with adequate capacity to accommodate the proposed development. In these cases, the minimum parcel sizes and uses of the land permitted for all development will be the maximum density and land uses permitted that will meet minimum water quality and quantity requirements, and the requirements of the county’s flood plain management ordinance.

No new development is proposed as part of this project. Sewage disposal and water service is supplied to the existing single-family residence by connection to city of Dunsmuir water and sewer facilities.

Policy 41.9 - Buildable, safe access must exist to all proposed uses of land. The access must also be adequate to accommodate the immediate and cumulative traffic impacts of the proposed development.

The project site has access to South First Street, a public roadway capable of accommodating the vehicular traffic generated by the proposed use.

Policy 41.18 – Conformance with all policies in the Land Use Element shall be provided, documented, and demonstrated before the County may make a decision on any proposed development.

Staff has reviewed all Land Use Element policies and has determined that the proposed vacation rental conforms to the General Plan.

Map 2: Erosion Hazard

Policy 7 – Specific mitigation measures will be provided that lessen soil erosion, including contour grading, channelization, revegetation of disturbed slopes and soils, and project time (where feasible) to lessen the effect of seasonal factors (rainfall and wind).

No new development is proposed as part of this project. Therefore, there would be no potential for erosion impacts due to implementation of the project.

Map 4: Severe Septic Tank Limitations

Policy 9 – The minimum parcel size shall be one acre on 0-15% slope and 5 acres on 16-29% slope. The permitted density will not create erosion or sedimentation problems.

No new parcels or development are proposed as part of this project, therefore there would be no potential for erosion impacts due to implementation of this project.

Policy 10 – Single family residential, heavy or light industrial, heavy or light commercial, open space, non-profit and non-organizational in nature recreational uses, commercial/recreational uses, and public or quasi public uses only may be permitted. The permitted uses will not create erosion or sedimentation problems.

The proposed project is a permitted use pursuant to Policy 10 and will not create erosion or sedimentation problems.

Map 7: Flood Hazard

Policy 21 – Primary and secondary flood plains are defined as follows:

1. Primary flood plains are the designated flood ways.
2. Secondary flood plains are the areas located within the 100-year flood hazard boundaries but located outside the designated floodways.

Policy 22 – No development may be allowed within the designated floodways, and any development proven to be outside the designate floodway and within the 100-year flood hazard boundary shall be in accordance with the requirements of the County's flood plain management ordinance.

No new development is proposed as part of this project. The requirements of Policy 22 are enforced by the Building Division as part of the building application review process, should development be proposed in the future.

Policy 24 – Single family residential, light commercial, light industrial, open space non-profit and non-organizational in nature recreation uses, commercial/recreational uses, and public or quasi-public uses only may be permitted if the requirements of Policy 22 have been met. The permitted uses will not create erosion or sedimentation problems.

The proposed project is a permitted use pursuant to Policy 24 and will not create erosion or sedimentation problems.

Policy 25 – A minimum parcel size of one acre on 0-15% slope, and 5 acres on 16-29% slope only may be permitted if the requirements of Policy 22 have been met. The permitted density will not create erosion or sedimentation problems.

No new parcels will be created as part of this project.

Policy 26 – All flood plain requirements of the Federal Government shall take precedence to Policies 21-23.

Any flood plain requirements of the Federal Government take precedence over the County's flood plain management ordinance and are enforced by the Building Division as part of the building application review process should any future development be proposed.

Map 8: Surface Hydrology

Policy 27 – No residential or industrial development shall be allowed on water bodies. Exceptions may be considered for water supply, hydroelectric power generation facilities, public works projects necessary to prevent or stabilize earth movement, erosion, and the enhancement of migratory fish and other wildlife, light commercial, open space non-profit and non-organizational in nature recreational uses, and commercial/recreation uses.

The rear portion of the subject property contains access to the Sacramento River. No development is within the river and no development is proposed to be in the river as part of this project.

Map 9: Deer Wintering Areas

Policy 28 – Single-family residential, light commercial, light industrial, open space, non-profit and non-organizational in nature recreational uses, commercial/recreational uses, and public or quasi-public uses only may be permitted. The permitted uses will not create erosion or sedimentation problems.

The proposed project is a permitted use per Policy 28 and will not create erosion or sedimentation problems.

Policy 29 – The minimum parcel also permitted shall only be those as designated on the critical deer wintering area map. The permitted density will not create erosion or sedimentation problems.

No new parcels are proposed as part of this project and the proposed project will not create erosion or sedimentation problems.

Map 10: Wildfire Hazard

Policy 30 – All development proposed within a wildfire hazard area shall be designed to provide safe ingress, egress, and have an adequate water supply for fire suppression purposes in accordance with the degree of wildfire hazard.

The proposed project is a residential use of an existing residential structure, and no new development is proposed as part of this project. The dwelling is approximately 120' away from a fire hydrant to the south and approximately 356' away from a second fire hydrant to the north. The Castella Fire Protection District station is approximately 1.1 miles south

of the property, and the Dunsmuir Fire Department station is approximately 1.4 miles north of the property. As a condition of approval, the project must comply with fire safe standards enacted pursuant to Public Resources Code (PRC) Section 4290 and 4291, and California Code of Regulations, Title 14, Fire Safe Regulations, to the satisfaction of Cal Fire and Siskiyou County Planning.

Map 11: Woodland Productivity

Policy 31 – The minimum parcel size shall be one acre on 0-15% slope, and 5 acres on 16-29% slope.

Policy 32 – Single family residential, light commercial, light industrial, open space, non-profit and non-organizational in nature recreational uses, commercial/recreational uses, and public or quasi-public uses only may be permitted. The permitted uses will not create erosion or sedimentation problems.

Policy 33 – All land uses and densities shall be designed so as not to destroy timber productivity on large parcels of high suitability woodland soils. (Class I and II.)

No new parcels are proposed as part of this project. Short-term vacation rentals are a permitted use per Policy 32 and the proposed use will not create erosion or sedimentation problems. No new land use or change in density is proposed as a part of this project.

California Environmental Quality Act Findings

1. Pursuant to CEQA Guidelines, Section 15301, Class 1, projects involving the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of public or private structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use are categorically exempt from the provisions of CEQA. Because the change in use is minor, would not involve a significant expansion of the use beyond that of the existing single-family residential use, and there is no substantial evidence demonstrating that there are unusual circumstances which would result in significant impacts that threaten the environment, the project is categorically exempt from CEQA pursuant to CEQA Guidelines Section 15301.
2. The Planning Commission has reviewed and considered the proposed project and all comments submitted and has determined that the record, as a whole, demonstrates that there is no evidence that the proposed project will have an individually or cumulatively significant effect.
3. The Planning Commission has determined that the custodian of all documents and material which constitute the record of proceedings shall rest with the County of Siskiyou Community Development Department.

Building Department Vacation Rental Inspection Report

Section 10-6.1502, Title 10, Siskiyou County Code

Applicant General Information

(*Required)

*Owner's Name: Aunyanern (said) Amornpongchai *APN: 030-510-030 Log No.: _____

*Owner's Address (City, State, ZIP): _____

*Owner's Cellphone: _____ *Owner's Email: _____

*Vacation Rental Address (City, ZIP): 641 S. First St. Dunsmuir

*Number of Bedrooms: 3 *Number of Stories: _____

*Swimming Pool, Spa, Hot Tub, Other (specify): _____

*Water Supply: Well Public *Sewage Disposal: Private Public

*Off-Street Parking (one plus number of bedrooms—spaces may be tandem): (4) currently septic but plan to connect to city sewage

Building Department: Verify if and when a building permit was issued for the building.

Permit #: _____ Date: _____

If no permit was issued, no inspection will be performed until resolved.

Vacation Rental Inspection Checklist

Category	Conforms Date:	Non-Conforming Date:	Remarks: Supplemental Report Attached—Yes / No If yes, number of pages _____
Location: Building, fuel tank, debris away from bldg., etc.	✓		
Sanitation: Potable water (cold & hot), sewage disposal	✓		
Room Dimensions: Ceiling Height, Room Size, etc.	✓		

EXHIBIT B - COMMENTS

Category	Conforms Date:	Non-Conforming Date:	Remarks: Supplemental Report Attached—Yes / No If yes, number of pages _____
Structural: Foundation floor, walls, ceiling, porch, deck, landing and railing, exterior/interior guardrails, steps	✓		
Plumbing: Required fixtures in good working order, water heater, etc.	✓		
Mechanical: Proper installation, capable of maintaining 68 degrees 3' off of floor, proper heating equipment installation	✓		
Weather Protection: Exterior walls, roof, windows, closure around pipes/venting etc.	✓		
Fire Hazard: Location of LPG tanks, Combustible fuels tanks, etc.		N/A	
Electrical: Exterior WP GFCI outlets, Interior GFCI outlets, lights, switches outlets in good working order	✓		
Electrical: Smoke detectors carbon monoxide alarms	✓		
Hazardous Premises: Ponds, open wells, etc.	✓		
Exits: Doors, windows, egress windows, width, height, etc.	✓		2 ROOMS w/ 15" X 32" WINDOW OKAY PER CEBC 505.3
Natural Light: Habitable rooms	✓		
Natural Ventilation: Habitable rooms, Bathrooms etc.	✓		
Handrails/Guardrails: Height/spacing etc.	✓		

Category	Conforms Date:	Non-Conforming Date:	Remarks: Supplemental Report Attached—Yes / No If yes, number of pages _____
Fenestration (glazing): Safety glazing doors, showers/tubs, stairs	✓		
Nuisance (hazard): Anything injurious to health. Sec 3479 CC		N/A	Environmental Health check for adequate garage storage, vermin, or rodents
Improper Occupancy: Room or area used for other than designed or intended		N/A	
Laundry Facilities: Washer or laundry sink located on premise	✓		
Swimming Pool: Pool, spa, hot tub equipped with required barriers and drains	✓		Environmental Health check for adequate garage storage, vermin, or rodents
Other:

The California Department of Forestry and Fire Protection has the following Public Resources Code 4290 requirements for the above referenced project (reference Calif. Code of Regulations Title 14, Division 1.5, Chapter 7, Article 5, Subchapter 2, SRA Fire Safe Regulations):

EMERGENCY ACCESS AND EGRESS

1273.01, 1273.02, 1273.03, 1273.04, 1273.05, 1273.06, 1273.07, 1273.08, 1273.09

Note: Driveway access must meet the roadway width standards

SIGNING AND BUILDING NUMBERING

1274.01, 1274.02, 1274.03, 1274.04

FUEL MODIFICATION AND STANDARDS

1276.01, 1276.02, 1276.03, 1276.04

SEE THE ATTACHED "4290 SRA FIRE SAFE REGULATIONS" FOR SPECIFIC CODE REQUIREMENTS.

If you have any questions please call me at (530) 842-3516.

Article 1 Administration

§ 1270.00. Title

These regulations shall be known as the "SRA Fire Safe Regulations," and shall constitute the basic wildfire protection standards of the California Board of Forestry and Fire Protection.

§ 1270.01. Purpose

(a) These regulations have been prepared and adopted for the purpose of establishing minimum wildfire protection standards in conjunction with building, construction and development in the State Responsibility Area (SRA).

(b) The future design and construction of structures, subdivisions and developments in the SRA shall provide for basic emergency access and perimeter wildfire protection measures as specified in the following articles.

(c) These measures shall provide for emergency access; signing and building numbering; private water supply reserves for emergency fire use; and vegetation modification. The fire protection standards which follow shall specify the minimums for such measures.

§ 1270.02. Scope

(a) These regulations shall apply to:

(1) the perimeters and access to all residential, commercial, and industrial building construction within the SRA approved after January 1, 1991 except as set forth below in subsections (b.) through (d), inclusive, and (f);

(2) the siting of newly installed commercial modulars, manufactured homes, mobilehomes, and factory-built housing, as defined in Health and Safety Code sections 18001.8, 18007, 18008, and 19971, except where being sited or installed as an accessory or junior accessory dwelling unit as set forth in subsection (d) below; (3) all tentative and parcel maps or other developments approved after January 1, 1991; and

(4) applications for building permits on a parcel approved in a pre-1991 parcel or

tentative map to the extent that conditions relating to the perimeters and access to the buildings were not imposed as part of the approval of the parcel or tentative map.

(b) These regulations do not apply where an application for a building permit is filed after January 1, 1991 for building construction on a parcel that was formed from a parcel map or tentative map (if the final map for the tentative map is approved within the time prescribed by the local ordinance) approved prior to January 1, 1991, to the extent that conditions relating to the perimeters and access to the buildings were imposed by the parcel map or final tentative map approved prior to January 1, 1991.

(c)(1) At the discretion of the local jurisdiction, and subject to any requirements imposed by the local jurisdiction to ensure reasonable ingress, egress, and capacity for evacuation and emergency response during a wildfire, these regulations shall not apply to the reconstruction or repair of legally constructed residential, commercial, or industrial buildings due to a wildfire, to the extent that the reconstruction or repair does not:

(A) increase the square footage of the residential, commercial, or industrial building or buildings that previously existed; or

(B) change the use of the building or buildings that had existed previously; or

(C) construct a new building or buildings that did not previously exist on the site

(2) Nothing in this subsection shall be construed to alter the extent to which these regulations apply to the reconstruction or repair of a legally constructed residential, commercial, or industrial building for reasons unrelated to a wildfire.

(d) These regulations do not apply to the creation of accessory or junior accessory dwelling units that comply with Government Code sections 65852.2 or 65852.22, or any local

ordinances enacted thereunder, as applicable, including any local ordinances requiring provisions for fire and life safety.

(e) Unless otherwise exempt pursuant to this subchapter, affected activities include, but are not limited to:

- (1) permitting or approval of new parcels, excluding lot line adjustments as specified in Government Code (GC) section 66412(d);
- (2) application for a building permit for new building construction;
- (3) application for a use permit; and
- (4) road construction.

(f) EXEMPTION: Roads used solely for agricultural, mining, or the management and harvesting of wood products.

§ 1270.03. Provisions for Application of These Regulations.

This subchapter shall be applied as follows:

(a) the local jurisdictions shall provide the Director of the California Department of Forestry and Fire Protection (CAL FIRE) or their designee with notice of applications for building permits, tentative parcel maps, tentative maps, and installation or use permits for construction or development within the SRA.

(b) the Director or their designee may review and make fire protection recommendations on applicable construction or development permits or maps provided by the local jurisdiction.

(c) the local jurisdiction shall ensure that the applicable sections of this subchapter become a condition of approval of any applicable construction or development permit or map.

§ 1270.04. Local Ordinances.

(a) Nothing contained in these regulations shall be considered as abrogating the provisions of any ordinance, rule or regulation of any state or local jurisdiction provided that such ordinance, rule, or regulation is equal to or exceeds these minimum standards.

(b) Counties may submit their local ordinances for certification via email to the Board, and the Board may certify them as equaling or exceeding these regulations when they provide the same practical effect. If the Board determines that the local requirements do not equal or exceed these regulations, it shall not certify the local ordinance.

(c) When the Board grants certification, the local ordinances, in lieu of these regulations, shall be applied as described in 14 CCR § 1270.02 and used as the basis for inspections performed under 14 CCR § 1270.05.

(d) The Board's certification of local ordinances pursuant to this section is rendered invalid when previously certified ordinances are subsequently amended by local jurisdictions, or the regulations are amended by the Board, without Board re-certification of the amended ordinances. The Board's regulations supersede the amended local ordinance(s) when the amended local ordinance(s) are not re-certified by the Board. Amendments made by local jurisdictions to previously certified ordinances shall be submitted for re-certification.

§ 1270.05. Inspections.

Inspections shall conform to the following requirements:

(a) Inspection shall be made by:

- (1) the Director, or
- (2) local jurisdictions that have assumed state fire protection responsibility on SRA lands, or
- (3) local jurisdictions where the inspection duties have been formally delegated by CAL

FIRE to the local jurisdiction.

- (b) Nothing in this section abrogates CAL FIRE's authority to inspect and enforce state forest and fire laws even when the inspection duties have been delegated pursuant to this section.
- (c) Reports of violations shall be provided to the CAL FIRE Unit headquarters that administers SRA fire protection in the local jurisdiction.
- (d) When inspections are conducted, they shall occur prior to: the issuance of the use permit or certificate of occupancy; the recordation of the parcel map or final map; the filing of a notice of completion; or the final inspection of any project or building permit.

§ 1270.06. Exceptions to Standards.

- (a) Upon request by the applicant, exceptions to standards within this subchapter or to local jurisdiction certified ordinances may be allowed by the inspection entity listed in 14 CCR § 1270.05, where the exceptions provide the same practical effect as these regulations towards providing defensible space. Exceptions granted by the inspection entity listed in 14 CCR § 1270.05 shall be made on a case-by-case basis only. Exceptions granted by the inspection entity listed in 14 CCR § 1270.05 shall be forwarded to the appropriate CAL FIRE Unit Office that administers SRA fire protection in that county and shall be retained on file at the Unit Office.
- (b) Requests for an exception shall be made in writing to the inspection entity listed in 14 CCR § 1270.05 by the applicant or the applicant's authorized representative. At a minimum, the request shall state the specific section(s) for which an exception is requested, material facts supporting the contention of the applicant, the details of the exception proposed, and a map showing the proposed location and siting of the exception. Local jurisdictions listed in 14 CCR section 1270.05 may establish additional procedures or requirements for exception requests.
- (c) Where an exception is not granted by the inspection entity, the applicant may appeal such denial to the local jurisdiction. The local jurisdiction may establish or utilize an appeal process consistent with existing local building or planning department appeal processes.
- (d) Before the local jurisdiction makes a determination on an appeal, the inspection authority shall be consulted and shall provide to that local jurisdiction documentation outlining the effects of the requested exception on wildfire protection.
- (e) If an appeal is granted, the local jurisdiction shall make findings that the decision meets the intent of providing defensible space consistent with these regulations. Such findings shall include a statement of reasons for the decision. A written copy of these findings shall be provided to the CAL FIRE Unit headquarters that administers SRA fire protection in that local jurisdiction.

§ 1271.00. Definitions

Agriculture: Land used for agricultural purposes as defined in a local jurisdiction's zoning ordinances.

Building: Any structure used or intended for supporting or sheltering any use or occupancy, except Utility and Miscellaneous Group U buildings.

CAL FIRE: California Department of Forestry and Fire Protection.

Dead-end road: A road that has only one point of vehicular ingress/egress, including cul-de-sacs and looped roads.

Defensible space: The area within the perimeter of a parcel, development, neighborhood or community where basic wildland fire protection practices and measures are implemented, providing the key point of defense from an approaching wildfire or defense against encroaching wildfires or escaping structure fires. The perimeter as used in this regulation is the area encompassing the parcel or parcels proposed for construction and/or development, excluding the physical structure itself. The area is characterized by the establishment and

maintenance of emergency vehicle access, emergency water reserves, road names and building identification, and fuel modification measures.

Development: As defined in section 66418.1 of the California Government Code.

Director: Director of the Department of Forestry and Fire Protection or their designee.

Driveway: A vehicular access that serves up to two (2) parcels with no more than two (2) residential units and any number of non-commercial or industrial buildings on each parcel.

Note: Driveway standard includes up to a total of four (4) residential Units on one (1) parcel- Board of Forestry

Distance Measurements: All specified or referenced distances are measured along the ground, unless otherwise stated.

Exception: An alternative to the specified standard requested by the applicant that may be necessary due to health, safety, environmental conditions, physical site limitations or other limiting conditions, such as recorded historical sites, that provides mitigation of the problem.

Fire valve: see hydrant.

Fuel modification area: An area where the volume of flammable vegetation has been reduced, providing reduced fire intensity and duration.

Greenbelts: A facility or land-use, designed for a use other than fire protection, which will slow or resist the spread of a wildfire. Includes parking lots, irrigated or landscaped areas, golf courses, parks, playgrounds, maintained vineyards, orchards or annual crops that do not cure in the field.

Hammerhead/T: A road or driveway that provides a "T" shaped, three-point turnaround space for emergency equipment, being no narrower than the road that serves it.

Hydrant: A valved connection on a water supply or storage system, having either one two and a half (2 1/2) inch or one four and a half (4 1/2) inch outlet, with male American National Fire Hose Screw Threads (NH), used to supply fire apparatus and hoses with water.

Local Jurisdiction: Any county, city/county agency or department, or any locally authorized district that issues or approves building permits, use permits, tentative maps or tentative parcel maps, or has authority to regulate development and construction activity.

Occupancy: The purpose for which a building, or part thereof, is used or intended to be used.

One-way road: A minimum of one traffic lane width designed for traffic flow in one direction only.

Residential unit: Any building or portion thereof which contains living facilities, including provisions for sleeping, eating, cooking and/or sanitation for one or more persons. Manufactured homes, mobilehomes, and factory-built housing are considered residential units for the purposes of mandatory measures required in 14 CCR § 1270.01(c), unless being sited or installed as an accessory or junior accessory dwelling unit in accordance with 14 CCR § 1270.02(d).

Road: Vehicular access to more than two (2) parcels; more than four (4) residential units; or access to any industrial or commercial occupancy. Includes public and private streets and lanes.

Road or driveway structures: Bridges, culverts, and other appurtenant structures which supplement the traffic lane or shoulders.

Same Practical Effect: As used in this subchapter, means an exception or alternative with the capability of applying accepted wildland fire suppression strategies and tactics, and provisions for fire fighter safety, including:

- (a) access for emergency wildland fire equipment,
- (b) safe civilian evacuation,
- (c) signing that avoids delays in emergency equipment response,
- (d) available and accessible water to effectively attack wildfire or defend a structure from wildfire, and

(e) fuel modification sufficient for civilian and fire fighter safety.

Shoulder: Vehicular access adjacent to the traffic lane.

State Board of Forestry and Fire Protection (Board): As defined in Public Resources Code section 730.

State Responsibility Area (SRA): As defined in Public Resources Code sections 4126-4127; and the California Code of Regulations, title 14, division 1.5, chapter 7, article 1, sections 1220-1220.5.

Structure: That which is built or constructed, an edifice or building of any kind, or any piece of work artificially built up or composed of parts joined together in some definite manner.

Subdivision: As defined in section 66424 of the Government Code.

Traffic lane: The portion of a road or driveway that provides a single line of vehicle travel.

Turnaround: A road or driveway, unobstructed by parking, which allows for a safe opposite change of direction for emergency equipment. Design of such area may be a hammerhead/T or terminus bulb.

Turnouts: A widening in a road or driveway to allow vehicles to pass.

Utility and Miscellaneous Group U building: A structure of an accessory character or a miscellaneous structure not classified in any specific occupancy permitted, constructed, equipped, and maintained to conform to the requirements of Title 24, California Building Standards Code.

Vertical clearance: The minimum specified height of a bridge or overhead projection above the road or driveway.

Wildfire: As defined in Public Resources Code Section 4103 and 4104.

Article 2 Emergency Access and Egress

§ 1273.00. Intent

Roads and driveways, whether public or private, unless exempted under 14 CCR § 1270.02(d), shall provide for safe access for emergency wildfire equipment and civilian evacuation concurrently, and shall provide unobstructed traffic circulation during a wildfire emergency consistent with 14 CCR §§ 1273.00 through 1273.09.

§ 1273.01. Width.

(a) All roads shall be constructed to provide a minimum of two ten (10) foot traffic lanes, not including shoulder and striping. These traffic lanes shall provide for two-way traffic flow to support emergency vehicle and civilian egress, unless other standards are provided in this article or additional requirements are mandated by local jurisdictions or local subdivision requirements. Vertical clearances shall conform to the requirements in California Vehicle Code section 35250.

(b) All one-way roads shall be constructed to provide a minimum of one twelve (12) foot traffic lane, not including shoulders. The local jurisdiction may approve one-way roads.

(1) All one-way roads shall, at both ends, connect to a road with two traffic lanes providing for travel in different directions, and shall provide access to an area currently zoned for no more than ten (10) residential units.

(2) In no case shall a one-way road exceed 2,640 feet in length. A turnout shall be placed and constructed at approximately the midpoint of each one-way road.

(c) All driveways shall be constructed to provide a minimum of one (1) ten (10) foot traffic lane, fourteen (14) feet unobstructed horizontal clearance, and unobstructed vertical clearance of thirteen feet, six inches (13' 6").

§ 1273.02. Road Surfaces

- (a) Roads shall be designed and maintained to support the imposed load of fire apparatus weighing at least 75,000 pounds and provide an aggregate base.
- (b) Driveways and road and driveway structures shall be designed and maintained to support at least 40,000 pounds.
- (c) Project proponent shall provide engineering specifications to support design, if requested by the local authority having jurisdiction.

§ 1273.03. Grades

- (a) At no point shall the grade for all roads and driveways exceed 16 percent.
- (b) The grade may exceed 16%, not to exceed 20%, with approval from the local authority having jurisdiction and with mitigations to provide for same practical effect.

1273.04. Radius

- (a) No road or road structure shall have a horizontal inside radius of curvature of less than fifty (50) feet. An additional surface width of four (4) feet shall be added to curves of 50-100 feet radius; two (2) feet to those from 100-200 feet.
- (b) The length of vertical curves in roadways, exclusive of gutters, ditches, and drainage structures designed to hold or divert water, shall be not less than one hundred (100) feet.

§ 1273.05. Turnarounds

- (a) Turnarounds are required on driveways and dead-end roads.
- (b) The minimum turning radius for a turnaround shall be forty (40) feet, not including parking, in accordance with the figures in 14 CCR §§ 1273.05(e) and 1273.05(f). If a hammerhead/T is used instead, the top of the "T" shall be a minimum of sixty (60) feet in length.
- (c) Driveways exceeding 150 feet in length, but less than 800 feet in length, shall provide a turnout near the midpoint of the driveway. Where the driveway exceeds 800 feet, turnouts shall be provided no more than 400 feet apart.
- (d) A turnaround shall be provided on driveways over 300 feet in length and shall be within fifty (50) feet of the building.
- (d) Each dead-end road shall have a turnaround constructed at its terminus. Where parcels are zoned five (5) acres or larger, turnarounds shall be provided at a maximum of 1,320 foot intervals.
- (e) Figure A. Turnarounds on roads with two ten-foot traffic lanes.

FIGURE FOR 14 CCR § 1273.05. TURNAROUND EXAMPLES

§ 1273.06. Turnouts

Turnouts shall be a minimum of twelve (12) feet wide and thirty (30) feet long with a minimum twenty-five (25) foot taper on each end.

§ 1273.07. Road and Driveway Structures

- (a) Appropriate signing, including but not limited to weight or vertical clearance limitations, one-way road or single traffic lane conditions, shall reflect the capability of each bridge.
- (b) Where a bridge or an elevated surface is part of a fire apparatus access road, the bridge shall be constructed and maintained in accordance with the American Association of State and Highway Transportation Officials Standard Specifications for Highway Bridges, 17th Edition, published 2002 (known as AASHTO HB-17), hereby incorporated by reference. Bridges and elevated surfaces shall be designed for a live load sufficient to carry the imposed loads of fire apparatus. Vehicle load limits shall be posted at both entrances to bridges when required by the local authority having jurisdiction.
- (c) Where elevated surfaces designed for emergency vehicle use are adjacent to surfaces which are not designed for such use, barriers, or signs, or both, as approved by the local authority having jurisdiction, shall be installed and maintained.
- (d) A bridge with only one traffic lane may be authorized by the local jurisdiction; however, it shall provide for unobstructed visibility from one end to the other and turnouts at both ends.

§ 1273.08. Dead-end Roads

- (a) The maximum length of a dead-end road, including all dead-end roads accessed from that dead-end road, shall not exceed the following cumulative lengths, regardless of the number of parcels served:
 parcels zoned for less than one acre - 800 feet

parcels zoned for 1 acre to 4.99 acres - 1,320 feet
parcels zoned for 5 acres to 19.99 acres - 2,640 feet
parcels zoned for 20 acres or larger - 5,280 feet

All lengths shall be measured from the edge of the road surface at the intersection that begins the road to the end of the road surface at its farthest point. Where a dead-end road crosses areas of differing zoned parcel sizes requiring different length limits, the shortest allowable length shall apply.

(b) See 14 CCR § 1273.05 for dead-end road turnaround requirements.

§ 1273.09. Gate Entrances

(a) Gate entrances shall be at least two (2) feet wider than the width of the traffic lane(s) serving that gate and a minimum width of fourteen (14) feet unobstructed horizontal clearance and unobstructed vertical clearance of thirteen feet, six inches (13' 6").

(b) All gates providing access from a road to a driveway shall be located at least thirty (30) feet from the roadway and shall open to allow a vehicle to stop without obstructing traffic on that road.

(c) Where a one-way road with a single traffic lane provides access to a gated entrance, a forty (40) foot turning radius shall be used.

(d) Security gates shall not be installed without approval. Where security gates are installed, they shall have an approved means of emergency operation. Approval shall be by the local authority having jurisdiction. The security gates and the emergency operation shall be maintained operational at all times.

Article 3 Signing and Building Numbering

§ 1274.00. Intent

To facilitate locating a fire and to avoid delays in response, all newly constructed or approved roads and buildings shall be designated by names or numbers posted on signs clearly visible and legible from the road. This section shall not restrict the size of letters or numbers appearing on road signs for other purposes.

§ 1274.01. Road Signs.

(a) Newly constructed or approved roads must be identified by a name or number through a consistent system that provides for sequenced or patterned numbering and/or non-duplicative naming within each local jurisdiction. This section does not require any entity to rename or renumber existing roads, nor shall a road providing access only to a single commercial or industrial occupancy require naming or numbering.

(b) The size of letters, numbers, and symbols for road signs shall be a minimum four (4) inch letter height, half inch (.5) inch stroke, reflectorized, contrasting with the background color of the sign.

§ 1274.02. Road Sign Installation, Location, and Visibility.

(a) Road signs shall be visible and legible from both directions of vehicle travel for a distance of at least one hundred (100) feet.

(b) Signs required by this article identifying intersecting roads shall be placed at the intersection of those roads.

(c) A sign identifying traffic access or flow limitations, including but not limited to weight or vertical clearance limitations, dead-end roads, one-way roads, or single lane conditions, shall be placed:

(i) at the intersection preceding the traffic access limitation, and

- (ii) no more than one hundred (100) feet before such traffic access limitation.
- (d) Road signs required by this article shall be posted at the beginning of construction and shall be maintained thereafter.

§ 1274.03. Addresses for Buildings.

- (a) All buildings shall be issued an address by the local jurisdiction which conforms to that jurisdiction's overall address system. Utility and miscellaneous Group U buildings are not required to have a separate address; however, each residential unit within a building shall be separately identified.
- (b) The size of letters, numbers, and symbols for addresses shall conform to the standards in the California Fire Code, California Code of Regulations title 24, part 9.
- (c) Addresses for residential buildings shall be reflectorized.

§ 1274.04. Address Installation, Location, and Visibility.

- (a) All buildings shall have a permanently posted address which shall be plainly legible and visible from the road fronting the property.
- (b) Where access is by means of a private road and the address identification cannot be viewed from the public way, an unobstructed sign or other means shall be used so that the address is visible from the public way.
- (c) Address signs along one-way roads shall be visible from both directions.
- (d) Where multiple addresses are required at a single driveway, they shall be mounted on a single sign or post.
- (e) Where a road provides access solely to a single commercial or industrial business, the address sign shall be placed at the nearest road intersection providing access to that site, or otherwise posted to provide for unobstructed visibility from that intersection.
- (f) In all cases, the address shall be posted at the beginning of construction and shall be maintained thereafter.

Article 4 Emergency Water Standards

§ 1275.00. Intent

Emergency water for wildfire protection shall be available, accessible, and maintained in quantities and locations specified in the statute and these regulations in order to attack a wildfire or defend property from a wildfire.

§ 1275.01. Application

The provisions of this article shall apply in the tentative and parcel map process when new parcels are approved by the local jurisdiction having authority.

§ 1275.02. Water Supply.

- (a) When a water supply for structure defense is required to be installed, such protection shall be installed and made serviceable prior to and during the time of construction except when alternative methods of protection are provided and approved by the local authority having jurisdiction.
- (b) Water systems equaling or exceeding the California Fire Code, California Code of Regulations title 24, part 9, or, where a municipal-type water supply is unavailable, National Fire Protection Association (NFPA) 1142, "Standard on Water Supplies for Suburban and Rural Fire Fighting," 2017 Edition, hereby incorporated by reference, shall be accepted as meeting the requirements of this article.

(c) Such emergency water may be provided in a fire agency mobile water tender, or naturally occurring or man made containment structure, as long as the specified quantity is immediately available.

(d) Nothing in this article prohibits the combined storage of emergency wildfire and structural firefighting water supplies unless so prohibited by local ordinance or specified by the local fire agency.

(e) Where freeze or crash protection is required by local jurisdictions having authority, such protection measures shall be provided.

§ 1275.03. Hydrants and Fire Valves.

(a) The hydrant or fire valve shall be eighteen (18) inches above the finished surface. Its location in relation to the road or driveway and to the building(s) or structure(s) it serves shall comply with California Fire Code, California Code of Regulations title 24, part 9, Chapter 5, and Appendix C.

(b) The hydrant head shall be a two and half (2 1/2) inch National Hose male thread with cap for pressure and gravity flow systems and four and a half (4 1/2) inch for draft systems.

(c) Hydrants shall be wet or dry barrel and have suitable freeze or crash protection as required by the local jurisdiction.

§ 1275.04. Signing of Water Sources.

(a) Each hydrant, fire valve, or access to water shall be identified as follows:

(1) if located along a driveway, a reflectorized blue marker, with a minimum dimension of three (3) inches shall be located on the driveway address sign and mounted on a fire retardant post, or

(2) if located along a road,

(i) a reflectorized blue marker, with a minimum dimension of three (3) inches, shall be mounted on a fire retardant post. The sign post shall be within three (3) feet of said hydrant or fire valve, with the sign no less than three (3) feet nor greater than five (5) feet above ground, in a horizontal position and visible from the driveway, or

(ii) as specified in the State Fire Marshal's Guidelines for Fire Hydrant Markings Along State Highways and Freeways, May 1988.

Article 5 Fuel Modification Standards

§ 1276.00 Intent

To reduce the intensity of a wildfire by reducing the volume and density of flammable vegetation, the strategic siting of fuel modification and greenbelts shall provide for increased safety for emergency fire equipment and evacuating civilians by its utilization around structures and roads, including driveways, and a point of attack or defense from a wildfire.

§ 1276.01. Setback for Structure Defensible Space.

(a) All parcels shall provide a minimum thirty (30) foot setback for all buildings from all property lines and/or the center of a road.

(b) When a thirty (30) foot setback is not possible for practical reasons, which may include but are not limited to parcel dimensions or size, topographic limitations, or other easements, the local jurisdiction shall provide for same practical effect.

(i) Same practical effect requirements shall reduce the likelihood of home-to-home ignition.

(ii) Same practical effect options may include, but are not limited to, noncombustible block walls or fences; five (5) feet of noncombustible material horizontally around the

structure; installing hardscape landscaping or reducing exposed windows on the side of the structure with a less than thirty (30) foot setback; or additional structure hardening such as those required in the California Building Code, California Code of Regulations title 24, part 2, Chapter 7A.

(c) Structures constructed in the SRA are required to comply with the defensible space regulations in Title 14. Natural Resources Division 1.5. Department of Forestry and Fire Protection Chapter 7. Fire Protection Subchapter 3. Fire Hazard.

§ 1276.02. Maintenance of Defensible Space Measures.

To ensure continued maintenance of commonly owned properties in conformance with these standards and to assure continued availability, access, and utilization of the defensible space provided by these standards during a wildfire, provisions for annual maintenance shall be provided in emergency access covenants or similar binding agreements.

§ 1276.03 Disposal of Flammable Vegetation and Fuels

Disposal, including chipping, burying, burning or removal to a site approved by the local jurisdiction, of flammable vegetation and fuels caused by site development and construction, road and driveway construction, and fuel modification shall be completed prior to completion of road construction or final inspection of a building permit.

§ 1276.04 Greenbelts

Subdivision and other developments, which propose greenbelts as a part of the development plan, shall locate said greenbelts strategically as a separation between wildland fuels and structures. The locations shall be approved by the local authority having jurisdiction and may be consistent with the CAL FIRE Unit Fire Management Plan or Contract County Fire Plan.

Subject: Short term Rental Permit Application for South 1st Street Dunsmuir. Response from Craig Foster 637 South 1st Dunsmuir, CA.

The fact that there seems to be a battle between the airbnb's of lowering prices attests to the oversaturation of short term rentals and short term rental permits in our area both immediate and general. This infringement on collateral property owner's rights to the quiet enjoyment of their property is manifested in fact by noise pollution, light pollution, as well as the influx of a constant rotating door of urbanites invading our heretofore local quiet community. and parking infringement on South 1st which has zero Street parking. Allowing this current permit which intends catering full time to a transient population within a 100 to a 150' of the immediate neighbors and within a shared property line to me is also within 150 feet of the current short term rental approved over the unanimous objection of the neighbors, eventhough that property engaged in illegal short term rental for one and one half years with no overcite or accountability from the county.

The existing Short term rental continues to intrude on the neighbors with Trespass to access the river, dog crap left on adjoining properties, driving vehicles on our property, light and noise pollution and ongoing incoming arrivals after 10 PM.

Adding another invasive environment on the river predictably invites more of the same and specifically lowers the property value for us afflicted neighbors who chose this location to not be in a transient rental location. Enough is enough and to this date the unfettered granting of these short term permits have as yet to consider the blight it brings upon the lives of impacted neighbors. The committee is obviously compromised by the only true consideration at issue, the pecuniary interest to the county. The veneer of allegedly screening these properties is subterfuge for the only interest being considered, profit to the county at the sacrifice of the property owners which should be the main concern of the committee. At least the environ of Mt. Shasta considers community impact by requiring a 2.5 acre minimum for short term rental. Both the current rental and the proposed one for South 1st are less then .75 acres with the current property at issue allowing direct access to the protected River environment. I join with my impacted neighbors in a very strong objection to the granting of yet another Short Term Rental Permit impacting our lives within a few feet of my and my neighbors and the existing Short term rental previously granted over our strident objections. Every violation of our quiet enjoyment has come to pass with the one Rental and the set of weekly invaders let alone a second tental within a few feet.

No one would object to the long term rental of this property so the investors are not deprived of potential. The downside is the county would not profit from that scenario beyond the taxes collected and utility fees assessed.

Already Short Term rentals are coming back on the sellers market as price wars continue as the overabundance of these properties has turned into financial losses due to a flooded market place.

Thank you for your ongoing consideration of the impact of this blight on your county property owners.

Craig Foster

County's property owners rights.

February 7, 2023

Janine Rowe
Commission Clerk, Siskiyou County Planning Commission

SUBJECT: AMORNPONGCHAI USE PERMIT (UP-21-19) SHORT TERM RENTAL
LOCATED AT 641 SOUTH FIRST STREET

Chairperson Lindler and Members of the Planning Commission

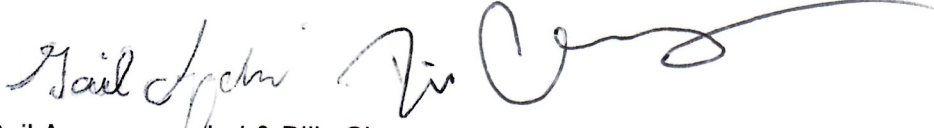

My husband (Billy Cheung) and I, (Aunyporn AKA Gail Amornpongchai) are in receipt of Mr. Craig Foster's letter of concern regarding our proposed short term rental. Let me first express that we have been coming up to the Dunsmuir area for the last 10 years as we have friends who introduced us to this area. Since that time, we have been interested in purchasing a second home in this area. Fortunately, we found a home last year that is just south of the Dunsmuir City limits in the unincorporated area. This home, our home, was in serious disrepair and as a result was vacant for 10 years. We, including my brother and mother still felt compelled to purchase this home. We have since spent over \$150,000 dollars in remodeling the home in the same footprint. We did feel at the time that we would want to rent it out as a short-term rental to recuperate some of the costs of purchasing the home and costs of remodeling. We subsequently submitted a use permit application to the County on August 25, 2021 before the ordinance amendment restricting short term rentals to sites 2.5 acres and larger became effective. A year later and we feel very fortunate to have been guided by staff through the process and to have reached the planning commission with a staff recommendation of approval. We will be complying with all of the conditions of approval of the use permit and we have followed the process correctly. Building permits and environmental health permits and inspections have been secured following all county, and state building and fire code requirements.

Equally important, we understand that staff will be making not only a recommendation of approval, but also that staff has conducted the appropriate analysis leading to the Planning Commission's ability to make all of the requisite findings of approval/consistency for our short term rental with applicable zoning, code requirements and general plan policies. We will be abiding with all of the required conditions of approval to address noise, trash and parking amongst some of the neighbor's (Mr. Foster's) concerns. In fact, a couple of months ago, I, my husband and Ms. Sylvia Welke, a local Dunsmuir resident and the owner of a professional management company, Dunsmuir Vacation Homes, canvassed the neighborhood trying to reach as many neighbors as possible to inform them of our intent to operate a short term rental and to acknowledge that we would be responsible homeowners and short term rental operators. We are finalizing our contract with Ms. Welke to manage the property for us.

Please note that the house was vacant for 10 years before we bought it and has only been occupied in the last few months by us and has not been rented out in any short term rental activity. Building inspections and environmental health inspections occurred as recently as 09/10/22 and 09/23/22 so the house was not even occupied until all final inspections were completed. We followed the process correctly and appropriately from the very beginning.

Finally, we value the quiet enjoyment of the property and those of our neighbors. It is our intent to continue to be good neighbors and to add to the continued reinvestment back into the neighborhood. Given time, I am hopeful that we can prove ourselves as good neighbors to Mr. Foster. Thank you Commissioners for your consideration of our proposed use permit and hope that you will vote in approval of the use permit.

Sincerely,

Gail Amornpongchai & Billy Cheung

Subject: Short term Rental Permit Application for 641 South 1st Street Dunsmuir/owners, Gail & Billy Amornpongchia.
Date: Wednesday, February 8, 2023 6:09:11 PM

Good afternoon, Janine

I am hoping to be the manager/agent for the Amornpongchia's who are trying to complete an application for a STR permit. I've been working with them for several months now & find them to be concerned & respectful about their place & its impact on the neighborhood. They invited me to go with them to talk to the neighbors personally about their STR. The man directly to the north of them on S. First was not at home, but we were able to talk to the other neighbors. These neighbors were glad to be contacted directly & were reassured that the STR would be monitored carefully by me & by Airbnb to keep the quality of life in that area as they want it to be. Gail & Billy had asked me early in our relationship what my rules & expectations were when managing a STR. I explained that I was well aware of the hardship some guests present in a quiet neighborhood, & that it was definitely in all of our best interests to maintain a quiet & carefully managed rental home.

This is what I wrote to them:

"I enforce all of the Airbnb rules & follow their protocol as closely as I can. That's why Airbnb is so valuable. They vet the guests and let you know if there seem to be any problems with the guest or their requests. You can actually see and check for yourself whether these are reliable & respectful guests by reading all reviews & #'s of successful rentals, etc. And this is one of the reasons I use Airbnb as my platform and why I ask for a two night reservation as a minimum. I notice immediately when guests are trying to maneuver me into renting to them outside of my rules on Airbnb."

I have since had several conversations with Gail & Billy about safety, neighborhood relations, Dunsmuir regulations, prices & accommodations that encourage careful & responsible bookings, **not fly by night stays** that are often "party" bookings. I've actually had Airbnb warn me about a potential "party" rental & they protected me so the people couldn't book at all on my Airbnb site.

I have had the good fortune to work in the hospitality field for 18 years & I have a lot of experience with guests, both good & bad. I have a good idea of the positive indications & warning signs to be aware of when renting out other people's property to unknown guests. The big word is respect! I feel that Gail & Billy are respectful of their neighborhood & of their responsibility to maintain a tranquil presence as an STR. I am respectful of these things as well, and of my responsibility to all concerned. This is my livelihood and I want to make this work for everyone so we can continue to have STR's in our area. Thanks for considering my input in your permit process.

Sincerely,
Sylvia
